

J.R. HARBER

Real Estate Investor, Humanitarian,
Philanthropist, and Fiction Author

J.R. Harber is a writer, humanitarian, philanthropist, and environmental advocate. When he's not exploring ideas for new writing projects, J.R. dedicates much of his time to directing his non-profit animal rescue and rehabilitation center in Georgia and advocating for environmental and watershed protection.

In his author debut, J.R. pens a case for society to take a more common-sense approach to how we live and consume resources to ensure a world worth living in for future generations.

The Future Was Now

Part one of the *BEYOND HORIZON* Series

The Future Was Now, an introduction to the Beyond Horizon trilogy, begins in a near-future, post-apocalyptic society that occurred due to people's lack of action. In part one of this coming-of-age narrative, J.R. presents two different worlds with clashing values that parallel major global challenges.

The Future Was Now grapples with current themes of comfort, privacy, money, and societal norms in the creation of a world able to support all. This introduction into a post-apocalyptic world draws a head-scratcher as it provokes readers to consider what values they cherish most.

A near-future love story that provokes readers to consider what they are willing to give up for a better world.
